## **News**

### **T30UN Western Kiribati –update April 17**

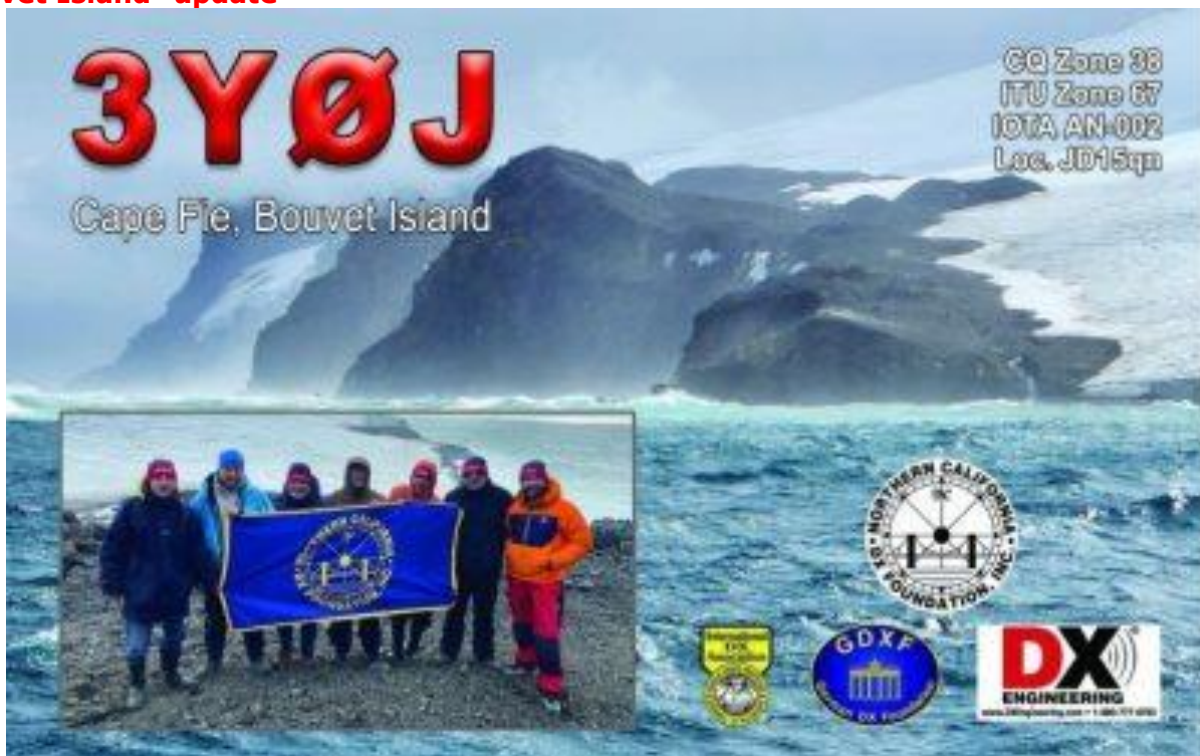

Team mention it takes a long time to upload logs from all laptops. If you do not see your callsign in the log yet, then try to call again regardless of dupe QSO or not. Final log upload for first week likely completed later today due to the previously mentioned generator issues and changing of QTH at the start. So far approx 80K QSOS made. Some pictures to follow of QTH. Also look for activity on 60m later this week.

### **VU7W Lakshadweep Island –update**

Metal tower and solar panel frame detunes the Spiderbeam, especially on the upper bands. Power amplifier fails to tune on 17,12 and 10m bands due to high SWR of the antenna. Unfortunately, it is not possible to lift up the Spiderbeam any higher. Internet is weak and only available in the reception area, so I will upload the logs to Club Log every couple days. <https://www.dx-world.net/vu7w-lakshadweep/>

## Bouvet Island -update

With this Final Press Release the team want to express gratitude to all our sponsors that generously supported our Bouvetøya adventure. Without the upfront support this trip would simply not be possible.

We announce today that we have decided to refund \$50,000 of the donations to the DX community.

One month before we departed Falkland Island, we informed the DX community we had financed our budget. We have continued to receive a great amount of financial support up until now. This way we can reduce the \$25,000 operator fee, and at the same time we are able to refund the DX community.

We have decided to refund our Lead Sponsor NCDXF with \$40,000. Initially NCDXF supported the team with their largest grant ever \$100,000. It is with pleasure we can give back as much as 40% of the donation to them.

## E51CIK and E51WEG South Cook Islands -update

Please use Fox/Hound mode when calling E51WEG and MSHV mode when calling E51CIK. We operate mostly on following frequencies: 7070, 10145, 14092 14095, 18092, 21092 21095, 24922, 28095.

### **AT8BRS Henry Island, India –update**

The present operation from AT8BRS said to be on Henry Island does not count for IOTA AS-153 as Henry Island does not fulfill the criteria for being an island as per IOTA rules. So will have to wait for a "real" AS-153. 73 Peter, VA3DXA

### **4W1A Timor Leste –update March 19**

32000 QSOs logged by this morning. Pileups are still huge. We are working on November preparation. That's why our activity could be a bit less in next 2 days. Tell us how you feel about our activity.

Internet connectivity at 4W1A is unstable at times. It appears that some contacts are lost in the permanent Live Log upload stream to Club Log. This can be fixed/synchronized by a later full upload of the ADIF file. If you wondered about missing contacts on Club Log, please check back again, and if necessary, send us a message through the Contact Form on our website.

### FS/OM2DX and FS/OM2ZZ –update

April 8th we came back from Saba and Statia to Saint Martin with activity on FT8/FT4 from FS. As planned I was active as PJ6/OM2ZZ with KX2 and EFHW antenna on April 15th. I made +120 QSOs. We arrived to Statia on 15th evening and built the antenna and IC7300. We were active on FT8 / FT4 modes, but also on CW. April 19th we will be on St. Barthelemy, from where I am planning to make some QSOs as FJ/OM2ZZ from the beach with KX2 and EFHW antenna. On Thursday we will be on Anguilla Island where we will be active as VP2EOM.

Once every two years, thousands of athletes from across the globe — from Scandinavia to the Mediterranean, the North Atlantic to the Caribbean and South Atlantic — come together to compete in the NatWest International Island Games. In 1985, as part of their Year of Sport, the Isle of Man set in motion an ambitious plan to bring together athletes from small islands across the world to take part in a new sporting festival dubbed the 'Inter-Island Games'.

700 sportsmen and women from 15 islands landed on Manx soil for what the UK national press called the 'Small Islands Mini Olympics'. Competitors hailed from the Faroe Islands and Scandinavia in the northern hemisphere, the British Isles, the Mediterranean and as far afield as St Helena in the South Atlantic—a 5,000-mile trip.
